## Programming

Resident programming is specifically created to help maintain function and enrich life through carefully planned activities.

Programming is individualized and designed to meet each resident's creative, physical, cognitive, social and spiritual needs.

The needs of residents are carefully balanced to help them feel as fulfilled and independent as possible. Programs are offered 365 days a year.

## Services

**Mount Olivet Home** offers secured memory care for residents coping with early to mid-stage memory loss who require supervision and minimal assistance with daily living activities.

**Mount Olivet Careview Home** offers secured memory care for residents coping with late stages of dementia or Alzheimer's disease who require skilled nursing services and/or extensive assistance with daily living activities.

A daily rate based on an assessment of the resident's needs includes:

- 24-hour licensed nursing care
- Medication administration and management
- Bathing and personal care assistance
- Meals and snacks
- Daily life enrichment activities
- Social work services for residents and families
- Chaplaincy and spiritual care
- Laundry and housekeeping services

## Amenities

- Comfortable lounges and patios
- Events for residents and their families
- Caregiver support group
- Worship services
- Aromatherapy
- Hair salon
- Gift shop
- Pet visits
- Guest meals
- Wi-Fi
- Smoke-free environment

## High-Quality Care with Dignity

Because of the increasing number of people with memory loss in the aging population, memory care is provided within Mount Olivet Home, our semi-independent living residence (board and care), and Mount Olivet Careview Home, our skilled nursing care community.

The mission of our memory care units is to provide our residents with memory-related issues a comfortable place to live in a safe and caring environment, with 24-hour care and meaningful activities.

To best meet the special needs of residents affected by memory loss, all Mount Olivet staff who work in the memory care units receive additional education in caring for residents with memory loss.

Through life-enriching programs and care, families will know that the memory needs of their loved ones are being addressed with dignity.
